JULIE CHEN

PMP Senior Project Manager — PMO

+56 9 27 26 23 39 | juliechrystelle.chen@gmail.com | Ricardo Lyon 800, Providencia, Santiago | linkedin.com/in/juliecchen

INTRODUCTION

Senior Project Manager (PMP) with 10+ years managing projects, programs and portfolios, driving end-to-end (E2E) technology and business transformation initiatives. Expert in bridging technical delivery with corporate strategy, leading cross-functional teams of 200+, and converting complex data into actionable executive decisions.

Thrives in fast-paced, multicultural organizations requiring high autonomy and adaptive stakeholder management.

CORE COMPETENCIES

Program & Portfolio Leadership: Built portfolio governance models, reporting structures, and KPI frameworks from the ground up · End-to-end lifecycle ownership (Waterfall & Agile) · Risk & budget management · Resource planning.

Cross-Functional & Executive Delivery: Direct accountability across Engineering, IT, Finance, and Logistics · Led 200+ contributors through high-pressure, multi-country deployment phases.

Technical Delivery: SAP BW, SAP Analytics Cloud, SAP S/4HANA transitions, Cloud Migrations, Data Architecture, Systems Integration, Release Management, Cutover & Hypercare.

Tools: Jira, Confluence, Tableau, Power BI, SQL.

WORK EXPERIENCE

Data for Good — Chile (Remote, Volunteer) — 2025 – 2026

Project Manager

- Leading a cross-functional team of developers building an AI-powered tool for automated evidence collection and reporting, from web-scraping architecture to AI-verified report generation.
- Managing remote-first delivery using Agile methodologies to drive milestones and stakeholder alignment.

Decathlon — Chile (Remote, Freelance) — 2023 – 2025

Sustainable Digital Project Manager

- Led the update of emission factors in SaaS tools (Board, Metrio), working directly with digital product teams to translate complex data into actionable business trajectories.
- Improved data quality and user experience in close collaboration with digital product managers — a direct example of bridging business and engineering.

Decathlon — France — 2021 – 2023

PMO – Value Chain Strategic Initiatives

- Managed a portfolio of cross-functional projects (carbon footprint, biodiversity, circular economy), engaging 600+ people across the organization.
- Produced data analyses supporting eco-design, production, and external audit requirements.
- Optimized budget allocation (>€2M) and drove a 28.5% reduction in transportation CO2e year-over-year.

Decathlon — France — 2019 – 2021

Business Intelligence Project Manager

- Bridged business and technical teams, translating requirements from production, logistics, and finance into executable BI solutions.
- Designed financial and operational dashboards enabling data-driven decisions across departments, with a focus on insight quality and business impact, not just technical delivery.
- Led a cloud migration reducing operational costs by more than €400K, managing the project end-to-end across technical and business stakeholders.

Tools: SAP BW, SAP Analytics Cloud, Talend

Decathlon — France — 2018 – 2019
SAP Expert / Cutover Manager

- Led the delivery of two major SAP releases, coordinating 200+ people across the organization from scope definition through hypercare.
- Owned technical-functional monitoring of SAP solutions across the full supply chain, building monitoring dashboards and automated alerts.

Tools: SAP Solution Manager, SAP Activate

McKesson — Germany — 2017 – 2018
SAP Project Quality Assurance (IT Audit)

- Ensured adherence to quality standards across SAP S4/HANA projects, building partnerships with HQ and international suppliers.
- Identified risks and delivered process recommendations improving operational efficiency.

McKesson — Germany — 2016 – 2017
PMO, SAP Center of Excellence

- Coordinated the implementation of a SAP S4/HANA center of excellence to optimize operational processes, ensuring compliance with quality KPIs.
- Implemented operating models and managed the outsourcing of technical support, ensuring an efficient transition with the supplier.
- Managed the outsourcing process for technical support services end-to-end — supplier selection, contract negotiation, onboarding, and performance handover.

Precia Molen — England, Poland, Scotland — 2013 – 2015
SAP International Project Manager

- Led the deployment of SAP ERP (MM, SD, CS, CO, FI, PP) in England and Poland, and the merger of a newly acquired Scottish entity into the English one — managing the full project lifecycle from needs analysis to post-implementation support.
- Managed and supervised a team of 2 junior project managers and 4 external consultants.

Roche Diagnostics — France — 2012 – 2013
Controlling Manager

- Contributed to group-level financial consolidation, budget preparation, and budget reviews at the country level.
- Automated fixed asset reporting, cutting processing time from 8 to 4 hours.

KPMG — Luxembourg — 2012
Financial Auditor (Internship)

- Participated in legal audit review of investment fund financial reports and analytical review preparation.

EDUCATION

Sciences Po Grenoble — 2008 – 2013
Master's Degree in Law, Economics & Management (Specialization in Public Policy, Legal & Financial Engineering)

CERTIFICATIONS

2026 — Data Analyst, Mines Paris
2023 — PMI Project Management Professional (PMP)
2021 — Sustainable Supply Chain Management, Cambridge University
